

Environmental/Sustainability Consultant (Junior)

denkstatt

denkstatt is a leading sustainability consultancy company present in 5 countries in CEE. We provide large scale of environmental and sustainability services for our clients and support them to work effectively, with care for the environment and local communities. We are in Romania since 2007.

We are looking for new team members in Bucharest

Apply for this job if:

- You have self-management skills;
- You are pro-active;
- You value sustainability;
- You want to support us in building the strategy and work hand-in-hand for implementation of our solutions;
- You want to be engaged in projects related to IT Sustainability Solutions, Environmental Studies and Assessments, Environmental Management Systems, Waste Management, HSE Legal Compliance, Sustainable Development, Energy Efficiency and Climate Protection, and
- You want to learn and grow.

denkstatt offers a competitive and fair salary; professional and personal growth; multicultural environment; opportunities to change the world with our work.

Educational Requirements: Bachelor's degree (technical area)

A bachelor's degree is required to become a sustainability specialist. Some potential fields of study include environmental or other technical background.

Languages: English

Job Skills: Analytical skills, communication skills, computer skills, problem-solving skills, leadership skills, decision-making skills

The candidate needs to be capable of paying attention to details and they must have strong analytical skills because the work can involve reviewing a lot of data. The candidate must have strong decision-making skills in order to effectively determine the best possible solutions. Communication skills are important because he/she must communicate with various stakeholders and must also write reports addressed to various types of audiences. The candidate must also be capable to use analytical software on computers, as well as a range of other types of software, so he/she need to have good computer skills. Most important, the candidate must have strong interest in combining technical environmental solutions with communication practices.

For those of you interested in this position, please send your **CV in English** to the following email addresses: office@denkstatt.ro and cristina.angheluta@denkstatt.ro.

Note: Full-time and Part-time options available.
